1. Attach camera to tripod.
2. Plug power cord into wall
3. Plug power cord into camera (under flap labeled DC IN, located to the lower right of the eyepiece)
4. Remove lens cap
5. Open LCD touch screen, turn on camera, and focus – if necessary
6. The green dot and two lines show that the camera is paused and ready to record. To begin recording, press the start/stop button. When the camera is recording, you will see a red dot. Once you have completed the interview, press the start/stop button.
7. Press the power button to turn the camera off. Return the LCD touch screen to the closed position. Unplug the camera and you are done!
